

LongXing Telecom has been producing high quality telecom products since 1983.

Our quality procedures ensure a consistent level of service and have been certified ISO 9001 and ISO 14001.

Our aim is to produce quality products delivered on time at a competitive price and to achieve this we have continued to invest in people and the latest technology in machinery. We have exported to over 40 countries worldwide and our sales reached US\$172 million in 2013.

Products & Services

- ◆ Customised FTTx Solutions
- ◆ Optical Fiber Distribution Frames
- ◆ Patch Panels
- ◆ Distribution Boxes (Optical & Copper)
- ◆ Outdoor Cabinets
- ◆ Network Cabinets
- ◆ Optical Cable Splice Closures
- ◆ Optical Cable Tray / Raceway Systems
- ◆ Power Solutions (PDU & Switching Power Supply)
- ◆ Optical Splitters
- ◆ Fiber Optic Adapters / Patch Cords / Pigtails
- ◆ Digital Distribution Frames

Designed for Scalable Growth

Z9 Series Network Cabinet

LongXing Z9 Series Network Cabinet solutions for advanced storage, cooling, power distribution, cable management and security in data centres and network rooms.

Designed to accommodate today's powerful computing hardware and scalable to cater for emerging high end blade server and equipment technologies that are rapidly appearing over the horizon - the world and the data centre environment is changing and a new generation of rack solutions is born for this change - it is the Z9 Series.

Universal Storage

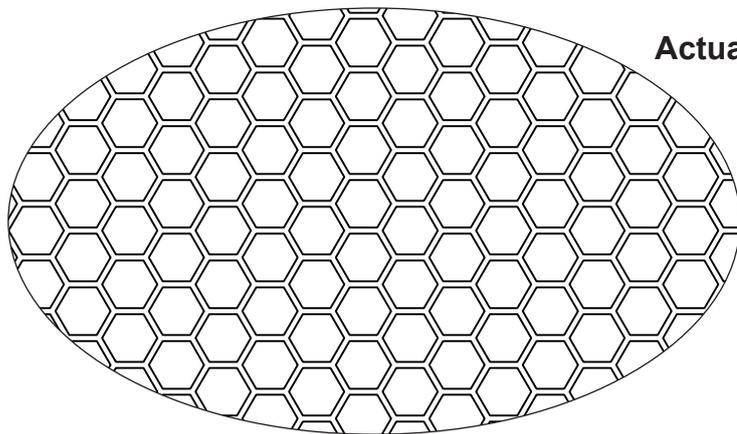

The Z9 Series rack provides an ideal equipment cabinet environment, designed around universal standards, for the compatible mounting of both OEM manufactured servers, from leading vendors such as IBM, HP, DELL and SUN, as well as all 19" rack mountable solutions.

While the Emerging technology of Blade servers cards allows for very high density computing power within a single rack, it becomes mission critical to ensure that the enclosure is specifically designed to dissipate the additional heat generated and manage the increased power and cable requirements – the Z9 series is engineered to provide flexibility whilst maximizing your investment protection in both your technology and more critically your data storage.

Structure

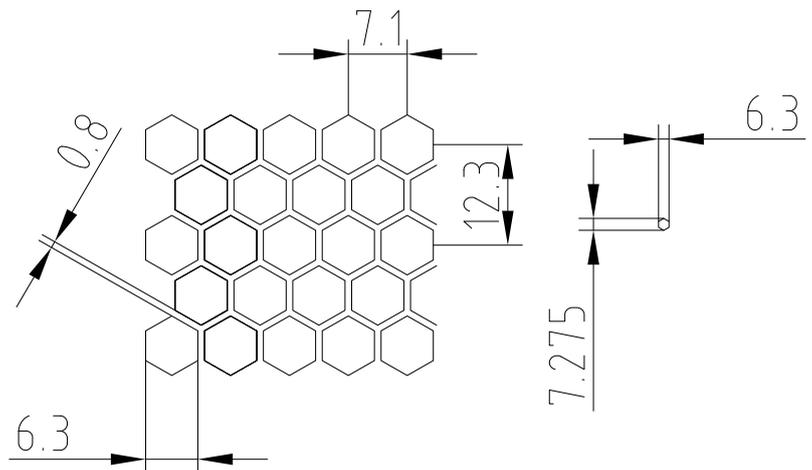

Critical Advanced Cooling

Actual Size

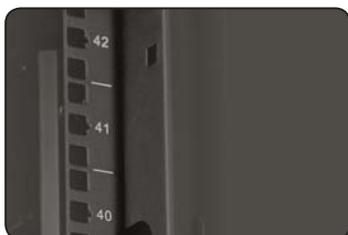

Air flow up to 80% perforated area

Nowadays cooling is a critical concern due to the increasing density of high end or blade type servers. Conventional cooling technologies and traditional style cabinets are no longer sufficient to stand up to such challenge.

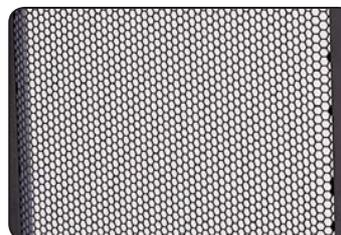

LongXing Z9 Series is designed and engineered, whilst providing absolute user flexibility, to meet these emerging thermal challenges.

One of the outstanding designs of Z9 series is offering up to 80% perforated areas which ensures the ultimate in air pattern and flow. Optional fans and custom-designed cabinets cladding for the Z9 series are also available. All these cooling solution designs meet or exceed most major products in the market for air flow.

Unit Markings

Efficient Cable Management

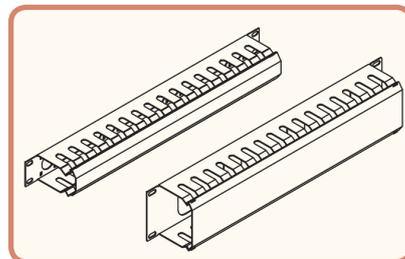

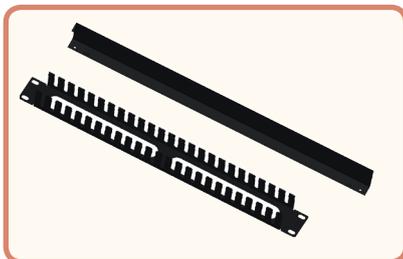

In today's data centres, the use of cabinets not specifically designed for high density equipment applications can lead to unsightly, often incorrectly installed or improperly managed cables. In the worst case this can affect data throughput as well as causing maintenance and thermal problems by blocking proper air flow.

Creating a Safe Environment

Heavy Duty
Framework

1000kg

holds 2200lbs load rating.

Safety

Safety is a key concern for cabinets and data centre environments. The Z9 series provides high end structural stability, tested through sequential loading, to ensure it provides a safe working environment. For ease of installation and transportation, the Z9 series has heavy duty rate castors and is static load rated to 1,000kg.

Packages & Packing

Package Options

Standard Package

Package A
w/o doors &
side panels

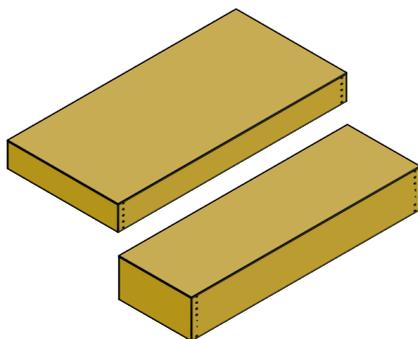

Package B
w/o side panels

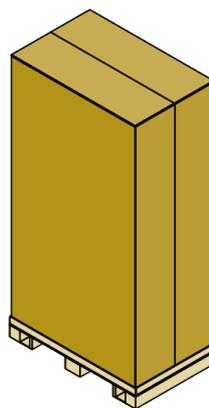

Package C
w/o doors

- 4 package options available
- Standard Package — Full Set
- Package A — Basic Frame
- Package B — Basic Frame + Doors
- Package C — Basic Frame + Side Panels

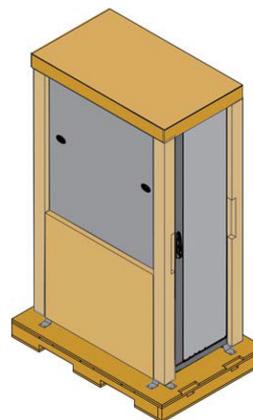

Packing Form

Flat Packing

Assembly Packing with
Carton and Pallet

Assembly Packing with
Wooden Case and Pallet

- Assembly and flat packing available
- Ideal for overseas transportation
- Better safety and protection can be provided
